

Explorer Scholarship – 2015

At Global Raymac Surveys, we actively support the development and growth of the Geomatic Engineering and Survey Industry and support those who are pursuing geomatics related post-secondary programs. We believe that investing in post-secondary education supports the legacy and diversity that we strive to achieve within our own organization. Global Raymac Surveys established the Explorer Scholarship to make our industry, and its geomatics education programs more accessible and affordable for students who are interested in a career within, or directly supporting, the Geomatics Industry.

In addition to being a student in good standing, students who can demonstrate active involvement within our industry, or their own community will be strongly considered. Students who are committing to summer employment with GRSI and express a willingness to support remote offices will stand an excellent chance of receiving an award.

GRSI will be awarding a total of \$2,500.00 in whole, or part, for the 2015 scholarship year, depending on the qualifications of the applicants. Decisions will be announced no later than September 1, 2015.

Successful recipients of these awards must be actively enrolled and/or confirmed in a recognized, full time geomatics program such as: Geomatics Engineering Technology, Field Survey, CAD, GIS or other related Land Survey Professional Designation programs.

We look forward to reviewing your successful application!

Kind Regards,
The GRSI Sr. Leadership Team

Note: GRSI reserves the right to proudly display our award recipient's names and/or photos on GRSI Social Media sites and within our corporate offices at the conclusion of the Award.

Application Deadline: August 15, 2015
Awards Notification: September 1, 2015
